

About Galaxy Nutritional Foods

Galaxy Nutritional Foods commitment to providing smart food choices for health-conscious consumers spans more than 25 years. Specializing in great tasting, plant-based cheese alternatives and organic food products, Galaxy uses high-quality, natural and organic ingredients. Its pioneering cheese alternative brands fulfill people's desire for cheese without trans fat, cholesterol or lactose. Galaxy Nutritional Foods' Veggie brand is the No. 1 soy-based cheese alternative in grocery stores nationwide and is primarily found in the produce department. Galaxy's other popular cheese alternative brands, available in natural foods stores nationwide, include soy-free Rice, soy-based Veggy, dairy-free Vegan, and dairy- and soy-free Rice Vegan. Beyond cheese alternatives, Galaxy provides organic cheese products under the Wholesome Valley Organic brand. Visit www.GalaxyFoods.com to learn more.

Vegan Shreds

**NEW
PRODUCT!**

Free of all animal products and full of rich cheesy flavor, Galaxy's Vegan Shreds have that super stretchy melt you love about real cheese without the saturated fats. And, Vegan Shreds work in any recipe calling for cheese. Bake Vegan Shreds in your favorite pasta entree, sprinkle them over a salad to add a zest of cheese flavor, or melt them on a pizza for a healthier option.

Galaxy's Vegan Shreds are 100% dairy and casein free, and are also free of gluten, lactose, cholesterol, preservatives and soy! These delicious, allergen free shreds contain no hydrogenated fats, are free of genetically modified ingredients and are an excellent source of calcium.

Flavors include:
Mozzarella and
Mexican

Cream Cheese Alternative

Our new cream cheese is a life changing, deliciously non-dairy plant based product. Spread it on a bagel, and enjoy with a glass of fresh squeezed orange juice. Use it in vegan frosting recipes, and in vegetable based appetizers. Galaxy's spread is identical in all respects to traditionally manufactured cream cheese, with the exception that only non-dairy products are used in the process.

Soy protein, vegetable fats and vegan culture are substituted for the traditional dairy based ingredients (milk, cream, butterfat) to create a great tasting non-dairy cream cheese. Galaxy Nutritional Food's cream cheese is vegetarian and vegan, gluten-free, GMO-free, preservative free, dairy-free, and kosher.

Flavors include: Classic Plain & Chive and Garlic under the Veggie and Vegan brands.

Veggie Brand – The #1 selling cheese alternative

— — — — —

This delicious soy-based wonder is an excellent source of calcium without the cholesterol, trans fat, saturated fat and lactose found in cheese. And to top it off, it's gluten free. Available in a variety of forms and flavors, Veggie is a smarter way to enjoy sandwiches, salads, and meals without sacrificing the delicious flavor and texture of cheese. Primarily you will find it in the produce section of your favorite grocery store, however, it can also be found in dairy sections nationwide. Available in a variety of slices, five delicious shredded varieties, traditional blocks, spreadable cream cheeses, and a grated topping.

Flavors include: Cheddar, Pepper Jack, American, Mozzarella, Swiss, Smoked Provolone, and many others. The top selling topping is available in Parmesan.

Vegan and Rice Vegan Brands – Dairy Free

Vegan - Made to melt and featuring an organic soy base, our vegan cheese alternatives taste great and are a yummy addition to your favorite vegan sandwiches, salads and meals. Slices are available in American and Mozzarella. Always free of dairy and casein, gluten, lactose, cholesterol and trans fat and preservatives, our Vegan brand is an excellent source of calcium that offers the added benefits of soy.

Flavors include: American and Mozzarella Slices, Cheddar and Mozzarella Blocks and Parmesan Flavor Grated Topping

Rice Vegan - With an organic Rice base, our Rice Vegan brand is free of casein/dairy, lactose, gluten, preservatives, cholesterol and trans fat. The only thing Rice Vegan isn't free of is big cheese taste and melt.

Flavors include: American, Cheddar and Pepper Jack Slices, and Cheddar and Mozzarella Blocks

Rice Brand

Galaxy's rice cheese products offer soy free and lactose free gooey goodness that are made to melt. Featuring an organic rice base, Rice cheese tastes amazing and is good for you. Pick us up in the cheese alternative or dairy section of natural foods stores and try us as a wholesome addition to your next meal.

This tasty rice-derived goody has no cholesterol, trans fat, lactose or gluten. An excellent source of calcium and preservative free, Rice is available in slices, shreds, blocks and grated topping.

Flavors include: Cheddar, Pepper Jack, American, Mozzarella, Swiss, and many others, including a grated parmesan flavor topping. The top selling shreds are available in Cheddar and Mozzarella.

Veggy Brand

Galaxy's Veggy brand features an organic soy base, and is made to melt. Always lactose, gluten free, cholesterol, trans fat, and preservative free, Veggy offers an excellent source of calcium and delicious cheese flavor. Available in natural food stores nationwide in the cheese alternative section or dairy section.

Flavors include: Cheddar, Pepper Jack, American, and Mozzarella.

Wholesome Valley – Organic Brand

Wholesome Valley Organic slices are USDA Organic – certified by OneCert Organic and made with organic cheese from Cedar Grove a small family owned cheese company in Wisconsin. Always a good source of calcium and protein, Wholesome Valley Organic slices are gluten free, trans fat free, and preservative free with less saturated fat and cholesterol than real cheese.

Flavors include: Cheddar and Mozzarella
